

IF YOU ARE NOT YET AN iCARD CUSTOMER AND WOULD LIKE TO BECOME ONE

Connect all our 300 LAKS Wearables to a free iCard Mastercard debit account for 6 years. (until 01/2030)

As a citizen of the EEA, you can open a forever free money management account. It takes just a few minutes and you connect with people who use iCard in over 30 European countries*. One account lets you send bank transfers, send free & instant transfers, pay with your phone, shop online and travel the world.

For more details visit [iCard.com](https://www.icard.com)

1. DOWNLOAD iCARD APPLICATION

Activate the wearable (= NFC accessory). The LAKS wearable appears in the app as a card with the designation "NFC Accessory". The display in the app can be customised.

If you are not yet an iCard customer, download the app and register as follows:

1. Pick up your mobile phone and make sure you have enough battery.
2. Sit down in a quiet place where you can be alone.
3. Make sure you have an internet connection.

2. REGISTER AND IDENTIFY

To fully use iCard you need to confirm your identity. This is quick and easy. Just have your identity card or passport on hand for the video call for identification.

4. Take your passport.
5. Now start the video call for identification.
6. An iCard employee will talk to you on the phone for about 5 minutes and go through everything with you at your leisure. There is no charge for this.

3. ADD MONEY TO YOUR NEW iCARD ACCOUNT

Select „Activity“ and then click „+“ and then select „Add Money“. Connect your credit card and add money to your account instantly. After successful identification, you can also add money via bank transfer or Trustly.

7. Then you will receive an email, answer it and send a confirmation of your home address. How this works will be explained to you in the e-mail.
8. Your identity is already confirmed.

Why an identification? According to the KYC directive (Know Your Customer), iCard is obliged to carry out a legitimation check on all new customers, primarily to combat money laundering and other fraudulent activities. This works via video call and confirmation of your address. You can do this from the comfort of your own home.

Note: The minimum age is 18 years and is available for citizens of all EEA countries. Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and Switzerland. English citizens who can also verify an address in an EEA country can also use iCard. You can pay worldwide with iCard. You can find all information about iCard at www.icard.com

HOW TO ACTIVATE YOUR LAKS WEARABLE

1. CONNECT LAKS WEARABLE

When you receive your LAKS wearable, you need to add it to your iCard Wallet.
